Noncompete Agreements

NOTE: "THE VENDOR" REFERS TO COMPANY/INDIVIDUAL RECEIVING TOE RINGS FROM ONCE UPON A TOE.

During this agreement, the vendor, vendor's employees, vendor's business partners or affiliates can sell our toe rings, thumb rings and anklets at private toe ring parties only, but agree not to set up in business as a direct or indirect competitor of Once Upon A Toe or it's sister companies at Art and Wine Festivals, trade shows, fairs, wholesale shows, retail shows, any type of indoor or outdoor festivals, retail store front or any similar type store within the states of California & Nevada for a duration of three years. The Vendor and their associates agree not to compete with Once Upon a Toe in the practice of custom-fitted toe rings, thumb rings and anklets or any such like jewelry items (except for toe ring parties) while doing business with Once Upon a Toe or it's sister companies.

While this agreement is in force, the vendor and their associates agree to abide by this noncompete agreement and the terms of this agreement. At all times while this agreement is in force and after its expiration or termination, the vendor and their associates agree to refrain from participating in the above mentioned festivals, trade shows, fairs, etc. for a duration of three years and within the states of California & Nevada.

After expiration or termination of this agreement, the vendor and their associates agree to respect the confidentiality of Once Upon A Toe's patents, trademarks, and trade secrets, and not to disclose them to anyone.

Competition means owning or working for a business of the following type: (toe rings, thumb rings and anklets.)

The Vendor and their associates agree to pay liquidated damages in the amount of \$100,000.00 for any violation of the covenant not to compete.

General Information

About the Toe Rings

These elegant Toe Rings are handcrafted and custom-fit with over 50 sizes. That is what is so uniquely special about these Toe Rings. When fit so accurately, about 95% can wear all their shoes including high heels and boots. Additionally, most our customers can swim, water ski, play sports, etc. in their Toe Rings. Basically, it's normal life after about 24 hours of awareness. The adjustable Toe Rings, on the other hand, typically pinch and are uncomfortable in shoes. They are available in Gold Filled, 14kt. Yellow, White & Rose Gold, Sterling Silver, Diamonds, Pink & White Sapphires, and Rubies.

Gold Filled

Gold Filled is 2 layers of 12kt. gold over jeweler's brass. It is very different from Gold Plated which flakes/peels off within 30 days. Gold Filled lasts, on average, about 2-3 years. Some people last 1 year while others last 5-7 years...it really depends on how rough one is on their feet (barefoot walking, sports, etc.) as well as the acidity in their skin.

Sterling Silver

Large quantities of Chlorine will tarnish the Sterling Silver. So those who have been in a highly chlorinated pool or Jacuzzi, or even have cleaned their bathtub with bleach, Tylex, Comet, etc. will complain that their silver rings have actually turned black. Since they are Sterling Silver, they will polish back up with a quality polishing cloth or metal cleaner. The Sterling Silver lasts, on average, about 2-3 years. Some people last 1 year while others last 5-7 years...it really depends on how rough one is on their feet (barefoot walking, sports, etc.) as well as the acidity in their skin.

Designed for Comfort

Most people wear their Toe Rings on the 2nd toe. Approximately 5% will be comfortable on any other toe. Remember to take the time to talk with every customer about fit and feel. If you spend the extra few minutes to instruct them, your efforts will be returned to you with a customer becoming a dear client and your business will grow.

Sizing Instructions

Each ring is fitted differently due to its width &/or texture. It's a little tricky at first. The Thin bands & Braids are sized a ¼ size smaller than the Thick bands. The Thick bands are sized ¼ smaller than the Bead. For example:

- If a person wants 2 Thick gold bands with a silver Bead in the middle, and their Thick gold bands are a size 4, then the silver Bead would be a 4 ¼.
- If a person has 2 Thin silver bands with a silver Bead, and their Thin bands are a size 2 ½, then their Bead would be a 3.
- If a person has 2 Thick bands & a Braid, and the Thick band is a size 5, then the Braid would be 4 ¾.

SIZING CHART

| | | | |
|-----------------------|--|--------------|--|
| (Smallest | | | Largest) |
| + (1/4 size) | + (1/4 size) | + (1/4 size) | + (1/4 size) |
| 3Pt & 5pt Diamonds | Thin, Braid, Serenity, Hearts, All other Diamonds | Thick | Bead, Wide, Hearts, Hibiscus & Malie Leaf |
| SIZE | SIZE | SIZE | SIZE |
| 2 ½ | 2 ¾ | 3 | 3 ¼ |

When sizing a Toe it's crucial that their foot is completely relaxed otherwise, the sizing will be inaccurate. It's not uncommon to remind customers 3-4 times to relax as it's hard for many women to do so because they are nervous, trying to help, or both.

Once Upon A Toe

Actual Sizing

1. Spray the Toe with the Windex and use your thumb nails to slide one ring over the top of the toe nail, while keeping your thumb nails under the toe pad and pushing, not only on, but up. The “under & up” is really important. Pushing up helps spare the knuckle on top of the toe. The pad underneath doesn’t feel much, but the knuckle on top does. A side-to-side or even a vibrating motion works very well.

2. Once the ring is on, dry the toe thoroughly, then try to pull the ring off. If it comes off easily, then it’s probably too big, and therefore, it will not only be uncomfortable in their shoes, but they may lose them in the shower or pool. It’s extremely important, however, to leave some room for swelling (summer, exercise, salty food, alcohol, hormones, etc.). It’s always better to err on the side of too big than too small. Note: the ability to pull off the ring when dry is just one way of gauging their size, but is not always accurate. Some toes are perfectly straight, with not much of a knuckle or pad, so pulling it off is fairly easy. These toes too, however, need room for swelling. Keep the weather in mind when sizing. For example, if it’s cool outside, they are probably not swollen, and you will need to leave quite a bit of room. However, if it’s hot outside, then they are probably quite swollen already, and don’t require much more room. I size very differently in December than in July.

3. Once they’ve decided the style and you’ve determined the size, complete their combo with the other rings.

Helpful hint

The toe on the left foot is usually (99% of the time) smaller & more consistently shaped than the one on the right foot. If your customer is not leaning towards one foot or the other, suggest the left foot as it will be easier for you and them when sizing as well as is, often times, more comfortable for them in shoes.

So, if a toe looks really difficult, feel free to request seeing both feet to find the easier of the 2 toes. For extremely difficult toes, use the liquid soap & then a spray of Windex.

It will take a while to learn sizing of difficult toes, practice on every friend or family member you can find.

I can be contacted if you would like to arrange sizing “practice” sessions. Remember, we are here to help you through the learning process.
